Posters

Prior to the conference: providing your poster

All poster presenters should prepare and provide their posters as PPT slides with PDF format (no more than 10 slides). After 16th August, please log in with your e-mail address previously used for registration, and upload your PDF file by 11th September 2021. Name your PDF file using your presentation ID number, which was provided in the notification of acceptance by email, followed by first author's surname (e.g., ID50_APSMER). Upload URL will be announced by the end of July.

Prior to the conference, all attendees will receive a link for all uploaded posters and will have a chance to browse them.

Session at the conference

Poster presentations will be held via Zoom, which consist of two successive sessions: flash talks at main rooms and discussions at breakout rooms. About 10 presenters are allocated to one poster session, where every presenter will have an opportunity to introduce his/her poster briefly within one minute without PPT slides or any visual materials as a flash talk in a main room. The presenters should prepare their flash talks in English. After the main room sessions with flash talks, real-time discussion with attendees will be conducted using breakout room individually set for each presenter. During this time, the attendees can walk in any breakout rooms and interact with each other. We recommend the presenters to share their poster slides in the breakout room to discuss their researches with the attendees.
